We also offer a 30-day free trial of AI based self-learning cyber defense tool, which can identify and autonomously responding to subtle attacks that bypass all other security tools.

QUALITY COMMITTMENT

At ARS, we're committed to exceeding your expectations and ensuring your complete satisfaction. Our team of experienced contract managers work diligently with our government customers to ensure the quality of our service is unparalleled and all performance metrics are met.

EXPERIENCE

Darktrace AI/ML Tool implementation in manufacturing environment – Lutron Electronics

Installed and developed security plan to address ongoing security concerns in the manufacturing facilities that provided security for outdated operating systems, IoT devices and automation (or industrial systems)

Portfolio Application Management - Verizon

Developed policies and procedures for risk mitigation, Patch Management, Vulnerability Management and Portfolio Management of critical infrastructure applications

Incident Response Planning - Verizon

Developed Incident Response plan for Wireless Information Security Officer. Delivered recommendations for incident response solutions and methods for triaging attacks. Experience with SIEM technologies such as IDS/IPS, Splunk, Kibana, Crowdstrike and Arctic Wolf

DEDICATED TEAM

When you work with ARS, you are working with an experienced team that is dedicated to completing all contractual objectives within the scope of work.

ARS will also assign one of our experienced team members to oversee the contract and provide regular feedback to the Contracting Officer and COR as needed. Our dedicated team is not satisfied until all expectations have been exceeded.
